

EPIC PURIFY 4 STEP ANTI-MICROBIAL SYSTEM

THE NEW LEVEL OF CLEAN

Epic Purify 4 step system, together with our Epic Authorized Applicators, enhances current cleaning procedures while providing revolutionary antimicrobial protection that is cost-effective, long-lasting, and highly effective against a broad spectrum of bacteria, mold, mildew, fungus, and virus.

1

EVALUATE

Identify potentially dangerous microbes and organic matter. A custom removal protocol is designed using the current data from **ATP Monitoring swab tests** and other methods.

2

ELIMINATE

Epic Surface Pure HLD™ (High Level Disinfectant) Disinfects Surfaces to ensure the highest level of cleanliness is achieved. Scientifically designed to **kill a wide spectrum** of dangerous pathogenic micro-organisms such as viruses, bacteria, microbes, fungi and parasites.

3

PROTECT

Epic Surface Pure 90™ improves infection control practices by providing an additional layer of protection for surfaces already treated with Epic Surface Pure HLD™. Epic Surface Pure 90™ creates an invisible **antimicrobial barrier that lasts up to 90 days**.

4

VERIFY

Be certain that your environment is safe and secure by looking for the **Epic Purify symbol** online or at your favorite restaurant, retail store, fitness center, office building, or any location where you want to feel confident that your personal health and safety is the highest priority.

SCAN ME
